TO: Mr. William E. Colby

FROM: GACarver, Jr.

SUBJECT: Psywar Gambit

REMARKS:

25X1 Attached are two documents you may find of some interest. One is the actual text of a 17 August Nhan Dan editorial. The other is an abridgement and commentary which may violate certain purist standards of scholarship with respect to literal quotation but does serve to highlight aspects of North Vietnamese thinking that do exist and deserve to be highlighted. This commentary was drafted as a result of a suggestion made by [] in PPOG though, for form's sake, it was prepared in the White House rather than the Agency. The White House staffer who wrote the piece is a young lawyer who recently joined that clan. His name, I believe, is Jonathan Elbridge Colby.
